

Solutions for Telecom

PROJECTS

Deploy projects faster to meet SLA's with improved collaboration and project visibility across your entire ecosystem.

MOBILE WORKFORCE

Optimize schedules and dispatch for your workforce with smart algorithms and enable technicians to complete their entire workflow, off-line and in the field.

LEASES

Perform FASB 842- or IFRS 16-compliant lease accounting. Collect and send accurate and timely payments with contract management and clause tracking.

ASSETS

Perform asset reconciliation and track important details and history in direct relation to your projects and sites.

BUSINESS INTELLIGENCE

Create custom reports or utilize pre-built templates to gain visibility into your operations and make data-driven business decisions.

SITES

Anchor all asset, project and lease information to your sites to quickly understand site performance and profitability.

Accruent enables site owners and network operators to efficiently manage sites, assets, projects, leases, and the relevant field workforce to improve operational visibility and performance across the network. Accruent offers a single source of truth for telecommunications companies managing an abundance of tasks, including colocation, BTS and maintenance projects. With a focus on increased collaboration across the entire ecosystem, Accruent's comprehensive solutions offer scalability for growing telecom organizations.
