

Equipment History

REPORT DESCRIPTION

The history of Work Orders for a specified asset (prompt).

This is not a standard report included within TMS OnSite/TMS OnLine. It is easily built within the framework of TMS should you have the resource to do so. Additional documentation to guide you through the development of the report will be provided upon request. If you would like modifications to the report as shown, a report creation request may be submitted to our Services Department via techsupport@frsoft.com for creation and delivery to you. The below listed fields are standard within TMS and the result as shown lists the Work Orders in ascending numerical sequence.

INFORMATION IN USE

- Work Order Number
- Work Order Type
- Work Order Description
- Work Order Date Created
- Work Order Date Completed
- Account Code
- Account Description
- Work Order Status Code
- Work Order Completion Comments
- Asset Number (prompt field)

REFERENCE ITEMS

- Clear, concise work order descriptions
- Clear, concise work order completion comments

IMPORTANT NOTE

Failure to correctly enter completion dates when setting a work order to complete / closed will cause incorrect/unnecessary negative results within the report.
