

Exesite – Project Management

ACCELERATE TIME OPENING

Added visibility into project schedules helps identify bottleneck areas. Reduce cycle times and adjust schedules in real-time.

CONSOLIDATE PROJECT DATA

With all project contributors adding/accessing information in one standardized solution, collaboration, accountability and analytics are within reach.

COLLABORATE ON PROJECT DOCUMENTS

Upload and organize all documents associated with projects to make exesite a living archive of all the locations & projects in your portfolio.

IMPROVE VISIBILITY

Close the gap between office and field team members. Enable everyone who relies on project information to see the data they need anytime, anywhere.

OPTIMIZE BIDDING

Utilize GC bidding invitations and review for apples-to-apples bid comparison & time savings.

PLAN & MANAGE PROJECT BUDGETS

Budget templates keep project financials on track and in check. Planned, revised and actual budget numbers shed light on problem areas.
