

# Life Safety Checklist Report

## REPORT DESCRIPTION

---

This is not a standard report included within TMS OnSite/TMS OnLine. It is easily built within the framework of TMS should you have the resource to do so. Additional documentation to guide you through the development of the report will be provided upon request. If you would like modifications to the report as shown, a report creation request may be submitted to our Services Department via [techsupport@frsoft.com](mailto:techsupport@frsoft.com) for creation and delivery to you. The below listed fields are standard within TMS and the result as shown lists the PM Schedules identified as Life Safety in ascending numerical sequence.

## INFORMATION IN USE

---

- PM Schedule Category (coding must be prefilled with catalogue numbers)
- PM Schedule Number
- PM Schedule Description (this will be reflected in the Work Order description)
- PM Schedule Frequency
- Next Due Date
- History (extensive SQL override statement to compile history of completions)

## REFERENCE ITEMS

---

- Initial setup of PM category coding
- Clear, concise PM Schedule descriptions

## IMPORTANT NOTE

---

*Failure to standardize and maintain accurate schedule information will cause incorrect/unnecessary negative results within the report.*
