

PLAN MODULE

Test Your Real Estate Plans and Evaluate Their Efficacy *Before* You Implement

Looking to evaluate your current corporate real estate (CRE) portfolio and make changes that will truly maximize utilization, save money, and improve productivity? Use the Plan module as your “virtual” sandbox.

Using Plan, you can analyze your current state, make virtual changes, and review their impact before you implement new strategies in the real world. That way, you can throw out ideas that don't work and ensure that you're making the right decisions before you invest time and money.

Test your ideas and see how they work

Avoid mistakes in the real world

Optimize your CRE portfolio

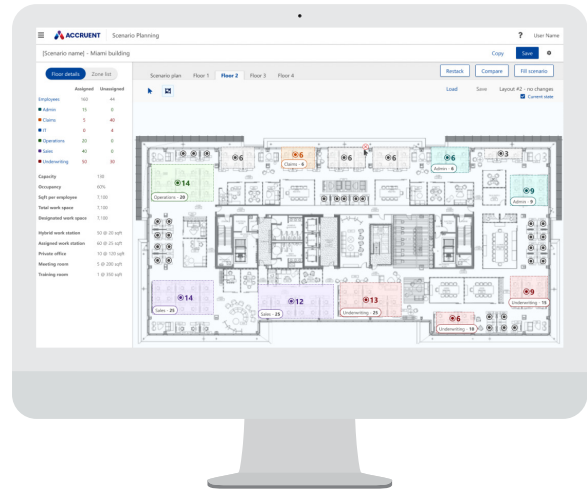

Inspire collaboration and meet expectations

CREATE A BETTER TOMORROW FOR YOUR REAL ESTATE PORTFOLIO

SCENARIO PLANNING

Have an idea and want to know how the change will actually impact your utilization and teams? Use dynamic dashboards and interactive floor plans to:

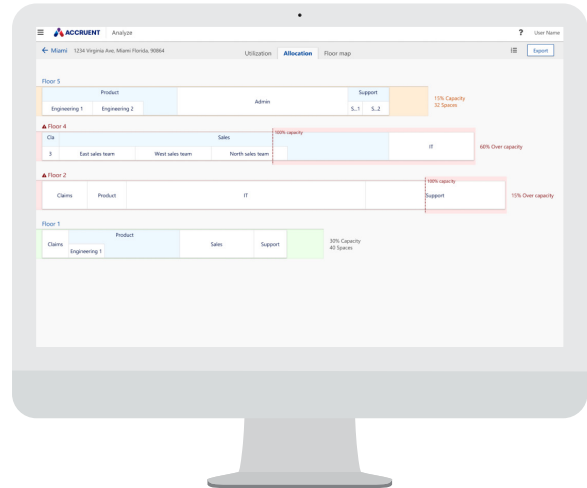

- Keep a record of your current state and easily make variants
- Compare and contrast multiple scenarios for future planning
- Collaborate with key stakeholders and decision-makers
- Measure the results of changes directly.

FLOOR RESTACKING

At the floor level, you can also:

- Allocate teams to different floors with ease to consolidate and reconfigure existing spaces
- Split departments across floors and buildings
- Plan for future capacity needs and understand the impact of your changes

TRY IT FOR YOURSELF!
