

Asset Category Codes with Risk Value

REPORT DESCRIPTION

The report provides a summary by list by asset category / subcategory reflecting the Asset Risk Strategy the combination is associated with and the established default risk value.

INFORMATION IN USE

- Asset Category / Subcategory
- Risk Strategy
- Risk Value

REFERENCE ITEMS

- Risk strategies must be established
- Each asset category must be associated with a risk strategy
- Selected risk strategy must be filled out for each asset subcategory

IMPORTANT NOTE

Failure to standardize and maintain accurate asset records will cause incorrect/unnecessary negative results within the report.
