

EMS ROOM SIGN APP

Product, Mobile, Release, DEMO

The EMS Room Sign App displays real-time meeting information and at-a-glance room availability on wall-mounted room signs. Employees and visitors know they're in the right place for their meeting and are empowered to extend, end, or even make a new reservation on the spot.

For everyday users of your EMS room and meeting scheduling solution, the Room Sign App is the simplest, most convenient way to book meetings. Expert users will appreciate how easily the Room Sign App can be configured in multiple ways on a variety of tablets. The Room Sign App is available as an additional module for EMS.

ENABLING THE DIGITAL WORKSPACE

Digital technologies help people work smarter, improve their workplace experience, and foster pride in being part of a 'cool' organization. Placed outside the entrance to meeting rooms, wall-mounted digital signs with EMS software allow employees to book themselves into reservable spaces. Users can:

- Easily view color-coded meeting details and the daily schedule for the room Schedule a room on-the-spot for immediate meetings
- Check in to meetings prior to start
- Extend a reservation for a meeting that is running long
- Auto-cancel a meeting that does not occur

TOP BENEFITS

Differentiate Your Brand

- Use sleek digital room signage to impress visitors, make employees proud, and enhance your reputation.

Improve Communication

- Determine room availability on the spot without interruptions.

Configure to Your Needs

- Control what information is seen and what tasks users can perform.

Increase Productivity

- Book or change reservations on the go.

KEY FEATURES

The Room Sign App links a tablet to your EMS solution to show reservation details for a designated room.

- Deploy on iPad Mini, Android tablets, or Windows tablets
- Brand with a custom background and your organization's logo
- Configure each sign from a simple display-only view to interactive check-in. Indicate room availability with multiple color-coded visual indicators. Turn on reservation auto-cancel when a user fails to check in.
- Require users to identify themselves before booking

**All hardware must be purchased separately*

EMS Software: One Platform. Vast Capabilities.

EMS is the industry's leading scheduling platform—connecting people to spaces, resources, services, and technology. Offering the greatest depth and breadth of functionality in the industry, EMS is built to support the entire spectrum of organizational needs, from meeting reservations and workspace hoteling, to resource, event, and services management.

TECHNICAL SPECIFICATIONS

Software Specifications

The Room Sign App includes the EMS Room Sign App API and the EMS Room Sign App Website.

The Room Sign App API is housed on a web server and requires .NET 4.6.1 or later and Application Pool 4.0. It runs with Windows Server 2008 R2, 2012, 2012 R2, and 2016.

The Room Sign App website sits on the same web server as the API. Although the Room Sign App can be accessed from any web browser, it is designed for touch-enabled tablets to run in landscape mode.

Tablet Specifications

The software can be used on iPad, Android tablet, and Windows tablet capable of supporting:

- Full screen web applications
- Touch enabled and run in landscape mode
- Operating Systems: iOS 8, 9 (Safari), Android 4, 5, 6 (Chrome), Windows 7, 8.1, 10 (IE 11) Supported screen resolutions: 1024 x 768, 1280 x 1024, 1660 x 900, 1920 x 1080

Additional information is available in our online documentation: Considerations for Buying EMS Room Sign App (Glance) and Deploying EMS Room Sign App (Glance) on Tablets

Hardware and Integration

While EMS Software only provides the Room Sign App, we work closely with customers to specify their overall requirements. This includes consulting on integrations with popular room signage hardware. EMS Software works with global leaders of hardware solutions, including ArmorActive, to provide the hardware for digital room sign solutions. To learn more about our partners, contact EMS.

ARMORACTIVE: BUSINESS SOLUTIONS FOR MOBILITY

ArmorActive delivers unique enclosures for digital conference room scheduling. With ArmorActive, you get:

Tablet Modularity Expertise

- Proven experience and knowledge to develop cost effective and flexible solutions for conference room scheduling.

Market Ready, Enterprise Class Solutions

- Robust enclosures solving the unforeseen challenges with tablet deployments.

Strong Partnerships with Solution Focused Software and Hardware Companies

- Our goal is to support best-in-class technologies enabling the right integrated solution.

EMS Software: One Platform. Vast Capabilities.

A highly configurable solution, EMS can be aligned to fit your resources and workflows. The EMS platform also serves as a single system of record and integrates with nearly every digital hardware vendor through APIs, modules, and toolkits.

THE PERFECT COMBINATION:

The EMS Room Sign App and ArmorActive's Optica Pro LED™ Enclosure. A part of the EMS Software platform, the Room Sign App, is a simple yet powerful tool. The app displays real-time meeting information and room availability on touchscreen room signs mounted outside reservable workspaces. Users can:

- Make on-the-go bookings and reservation edits.
- Work more efficiently, enabling increased productivity.
- Gather important utilization data to inform real estate and workplace decisions.

APPLE, ANDROID, AND WINDOWS COMPATIBLE

The EMS Room Sign App is easy to install and use. When devices are secured in the ArmorActive Optica Pro LED™ Enclosure, users are able to see a room's status easily from a distance via the glowing rim LED indicator around the enclosure. Together, the Room Sign App and the Optica Pro LED Enclosure digitizes your spaces, helping to increase productivity and differentiate your brand.
