

Mobile Inspections Application for Healthcare

CONSISTENT CONDITION SURVEYS, INSPECTIONS, AUDITS AND CAPITAL PLANS

Improve quality, safety, and the patient and staff experience.

With the healthcare industry's shift towards value-based care, enhancing the experience of care for individuals, improving health and safety standards, and reducing the per capita cost of healthcare has become increasingly high priority for healthcare systems across the care continuum.

Optimizing healthcare outcomes requires the streamlined care coordination of interdisciplinary teams and effective management of valuable labor resources in order to deliver the right care, at the right place, by the right person, and at the right time.

Technology plays a critical role as healthcare systems navigate the complex value-based models in today's regulatory environment. Collecting accurate, consistent, real-time asset information is critical for ensuring safety, accreditation, compliance and reimbursements across your healthcare properties.

Our fully mobile is fully configurable and allows you to automate and tailor the data collection process with simple, consistent, and intuitive guided checklists for inspections, surveys, audits, asset conditions across the continuum of care.

Ensure consistent data collection for inspections, surveys, audits, asset conditions across the continuum of care.
