Accruent Academy believes that helping your users understand our software's capabilities to quickly become proficient in the new systems is the key to your success. This takes serious training. The success of a major software application deployment or upgrade has a direct correlation with the thoroughness of the training provided. Accruent Academy is the solution to add value to the digital transformation occurring in your organization and enable your users to get the most out of their Accruent software.

Accruent Academy delivers world-class training solutions standard with your Lucernex software contract. Instead of purchasing separate training courses, a set of training licenses will be included as a part of the software contract, increasing training access and leading to faster enablement, higher user adoption, and greater software ROI. There will be 25 users available for no cost per customer account.

Whether you are new Lucernex software, part of an implementation team, or an experienced user, we have continuous training that will benefit you and your organization.

Our standard training portfolio contains the training needed to ensure your end users, system administrators, and support contacts have the knowledge and skills necessary to get the most out of your Lucernex software.

The standard training courses include online eLearning courses as well as a targeted MicroLearning with content presented through demonstration videos, animated lectures, interactive text and graphics, and practice software simulations.

Please see our catalog for more detailed information per course available in the Accruent Academy.

ADD ONS

Lucernex Advanced Report Builder

This training provides a deep dive for Lucernex users to have a better understanding of the reporting tool and database tables through hands-on practice. This is an advanced course intended for those users that are familiar with the software and actively need to create reports.
