MERIDIAN

INCLUDED TRAINING

Accruent Academy believes that helping your users understand our software's capabilities to become proficient in the new systems quickly is the key to your success. This takes serious training. The success of a major software application deployment or upgrade has a direct correlation with the thoroughness of the training provided. Accruent Academy is the solution to add value to the digital transformation occurring in your organization and enable your users to get the most out of their Accruent software.

Accruent Academy delivers world-class training solutions, standard with your Meridian software contract. Instead of purchasing separate training courses, a set of training licenses will be included, increasing training access and leading to faster enablement, higher user adoption, and greater software ROI. There will be 25 users available for no cost per customer account.
