

Resource Productivity Analysis

REPORT DESCRIPTION

The report provides a listing, based on time charge date, of hours charged by type for each resource within a date range. Also, prompts for available hours and shows percentage of charged to available.

INFORMATION IN USE

- Date Range of Work Orders (created-on)
- Time Charge entities
- Available work hours covering the date range

REFERENCE ITEMS

- Available hours must be correct for time frame
- Time charge entries

IMPORTANT NOTE

Failure to enter correct available hours when prompted by the report and correct time charges within a work order will cause incorrect / unnecessary negative results within the report.
