

Telecom Project Management

OPTIMIZE PROJECT EFFICIENCY TO DRIVE FASTER COMPLETION TIMES

The telecom industry wastes an average of \$106 million dollars per \$1 billion spent on projects.¹

As the telecom industry continues to grow, companies are looking for ways to become more operationally efficient and eliminate unnecessary costs.

Operational efficiency is essential to organizations which deploy countless projects each year. Whether your company seeks to improve SLA compliance to increase customer satisfaction, or drive faster turnaround times to reduce costs, an optimized workflow is the key to success.

Accruent's Siterra offers a Project Management solution that is designed to compress project schedules and budgets by streamlining your processes. This scalable, SaaS solution will help you oversee the details of thousands of concurrent projects.

Track all aspects of tower and network projects while enabling teams to execute more projects, faster, with higher consistent quality.

¹PMI's Pulse of the Profession 2017

GREATER PROJECT AND MAINTENANCE EFFICIENCY

Accruent's telecom project management software has helped companies manage more than 2.1 million global projects with an associated investment of more than \$50 billion.

Milestone and Task Scheduling

Establish task dependencies between related projects based on completed milestones to ensure that proper timelines and workflows between linked projects are followed.

Proof of Execution

Require documentation, including GPS-verified photographs, to ensure proper workflows are followed among all team members and vendors.

Schedule Visibility

Use project financials to generate budget schedules and project forecasting to predict timeline adjustments.

Workflow Templates

Automate the progression of projects with form-driven workflows that generate notifications to drive projects forward.

Information Control

Create an unlimited number of user or group permissions to maintain control of data access. Upload and organize documents at the project level.

Dashboards and Reporting

Make data-driven business decisions with pre-built reports, real-time queries, ad hoc reports, and custom reports.

OPTIMAL, CONSISTENT QUALITY AND VALUE

With the right people and tools in place, your organization can increase efficiency and productivity through effective project management.

- Oversee all project tasks and deliverables in a single system.
- Improve accountability by tracking each stakeholder's role in critical paths.
- Improve project consistency with templates and proof of execution.
- Increase visibility into project timelines and SLA compliance.
- Manage costs against budgets with project forecasting and financials.

The screenshot displays the Siterra project management interface for a project named 'Colocation (11523892)'. The interface includes a navigation sidebar on the left with sections for 'ILC0001-SR', 'Additional Data', 'Projects', 'Assets', and 'Libraries'. The main content area shows project details such as Name, Template, Project Number, Start Date, End Date, Status, Reason, Role Set, Type, Project Authorization, Plan Tables, Progress, and Percentage Complete (1%). Below this, there is a section for 'Additional Project Data' including Program, Project Manager Name, Project Manager Phone, and Project Manager Email. The 'Project Schedule' section features a table with columns for Number, Task Name, Milestone, Notes, Locked, Duration, Progress, Predecessor Task Id(s), Checklist, Role, User, Forecast, Category, Baseline, and Completion. The table lists tasks such as 'LEASE APPLICATION', 'STRUCTURAL REVIEW', and 'STRUCTURAL ORDERED' with their respective progress and completion dates.

Number	Task Name	Milestone	Notes	Locked	Duration	Progress	Predecessor Task Id(s)	Checklist	Role	User	Forecast	Category	Baseline	Completion
100	LEASE APPLICATION			No	5	50%					11/10/2017			
	Application Sent													
	Application Received													
	Deal & Equipment Kick-off													
	Ready for Review													
200	STRUCTURAL REVIEW			No	5	0%	100				14/10/2017			
	Structural Review													
	Structural Approved													
300	STRUCTURAL ORDERED			No							17/10/2017			
	Structural Review													
	Structural Approved													

Telecom customers using Accruent's Project Management solution reduce project completion times by 40% over the first few years.
