

vx Field: mobile workforce management

WHY vx FIELD?

vx Field mobile workforce management provides end-to-end service delivery functionality to optimise performance of simple and complex field service work in line with your business objectives. The solution delivers intelligent work allocation, optimised resource scheduling and dispatch, performance management and fully integrated parts and inventory management.

The intuitive, user-friendly mobile application and configurable workflow helps to maximise technician productivity in the field.

Get the most from your mobile workforce through optimised scheduling, dispatch and field execution to maximize workforce productivity

“We wanted a solution with a proven track record. The implementation has enabled EmiTel to achieve the expected benefits, including improving productivity and reducing operational costs in our mobile workforce operations.”

– Przemyslaw Kurczewski, CEO of EmiTel

About Accruent

Accruent is a global software company that helps organizations achieve superior performance by transforming how they manage their physical resources. Its innovative, industry-leading cloud-based software and services enable organizations to optimize all stages of real estate, facilities and asset management, from capital planning through to IoT-based monitoring and control. With a proven track record across two decades, Accruent has created the only integrated SaaS-based framework and reporting platform for full lifecycle physical resource management. More than 10,000 global customers depend on Accruent solutions to drive out hidden costs, extend asset lifecycles, protect their brands, ensure compliance and deliver on the missions of their organization. Headquartered in Austin, Texas, Accruent serves a wide range of industries in more than 150 countries around the world.
